- STATEMENTS/FORMS
- VARIABLE DATA PRINTING

HP INDIGO 3050

- Unique liquid HP ElectroInk processing
- Seven-colour printing
- Substrate versatility
- Dramatic turnaround time
- Quick and efficient personalisation
- Maximised workflow

For amazing image quality that rivals offset (and in some cases surpasses it), combined with high-volume printing capacity, choose our HP Indigo press 3050. Designed for the most demanding production environments, our HP Indigo press 3050 delivers up to seven-colour printing, high definition images and outstanding substrate selection.

Throughput is geared to ensure fast time-to-market, reaching 4,000 four-colour 8.5" x 11"/A4 single sided images-per-hour (two-up) or 16,000 single-colour 8.5" x 11"/A4 images-per-hour (two-up).

ROBUST PERFORMANCE

Dramatically reduces turnaround time - achieving throughput speeds of up to 4,000 four-colour A4 or 8.5" x 11" images-per-hour (two-up), 16,000 single-colour A4 or 8.5" x 11" images-per-hour (two-up).

Maximises workflow - electronic collation, automatic duplexing, seamless job changes and colour personalisation options allow for efficient streamlined operation.

LIQUID INK TECHNOLOGY

High definition imaging and unique liquid HP ElectroInk - create rich, vibrant colour prints at 800 x 800 dpi resolution and 180 lines per inch.

Unlimited colour opportunities enhance colour vibrancy and expand job potential - optional five, six and seven-colour inking stations allow you to augment four process colours with HP IndiChrome onpress and offpress special colours.

PROFITABLE SHORT RUNS AND PERSONALISED PRINTING

Affordable short-run printing - delivering true liquid ink offset quality printing for quantities as few as one.

Customised print pieces to meet customers' needs - every piece can be unique with HP personalisation software.
